Application:
Ideal for primary fusing applications in vehicle electrical systems

Specifications:
Rating: For use with Mega* fuses from 100 - 300A
Temperature rating: 120˚C (250˚F)
Materials: Plastic base/hard cover - Nylon 66 30% glass
Soft cover - PVC
Studs - 5/16-18 or M8 zinc plated steel or stainless steel
Wire size - #2-8 AWG
Torque rating - 120 in - lbs max.
Nuts - Zinc plated steel

• RoHS compliant

Features:
• Full 180° wiring access
• Metric and stainless steel studs available
• Hard and soft covers available in black or red

Part Numbering System:
MFH - XXX - XX

Cover Color (omit if none)
B - Black
R - Red

Cover Style (omit if none)
H - Hard
S - Soft

Hardware
O - None
1 - Nuts Included
2 - Nuts Bulk

Stud Material
1 - Steel, Zinc Plated
2 - Stainless Steel

Stud Thread
M - Metric M8 X 1.25
U - UTS 5/16-18
