

August 27, 2018

Subject: United States Trade Representative, Section 301, Trade Act of 1974

Dear valued customer,

Tariffs on the second list of 279 products affected by [Section 301](#) went into effect on August 23, 2018. These tariffs are supplier-imposed, and we must begin forwarding them — however, to provide additional time for you to assess the impact of “[List 2](#)” on your business, Arrow has decided to continue absorbing the tariffs through September 9.

Beginning September 10, 2018, your Arrow invoices will include separate line items to clearly reflect all List 2 products where China has been identified as the country of origin. The charges will range from 0%-25% depending on the supplier.

Arrow will continue efforts to engage with industry trade organizations and our supplier partners to minimize supply chain disruption. Additionally, we are advocating for a reduced number of products identified on the third list that is currently under review. If you would like to be a part of that public discussion, please share your feedback on www.regulations.gov.

We are committed to providing an exceptional customer experience and, as the issue evolves, our sales representatives will provide you with updates on impacted parts related to your business with us. As always, please feel free to reach out with any questions or feedback.

We appreciate your continued support.

Sincerely,

John Drabik
President
